Dr. Nazir Ahmad Bhat

Coordinator IQAC/DSW

Dear Students,

It is a pleasure to connect with you and acknowledge the positive academic and student-related developments taking place in the college. The role of the Dean Students Welfare is to ensure that students feel supported, engaged, and empowered throughout their academic journey, and I am happy to see increasing student participation in various academic, cultural, sports, and extension activities.

Over the recent period, we have made efforts to strengthen student support services, improve coordination of student activities, and create more opportunities for student engagement, leadership, and personality development. The active involvement of students in seminars, workshops, debates, cultural programs, and sports activities reflects a vibrant and dynamic campus environment.

The positive and forward-looking approach of the principal, ***Prof. Tariq Hussaian Mir*** has been instrumental in creating a supportive and progressive environment within the college. His emphasis on encouragement, inclusivity, and student-centered initiatives continues to inspire both students and staff. This leadership has significantly contributed to fostering a culture of growth, discipline, and academic excellence.

Believe in your abilities and never underestimate your potential. Every small step you take today brings you closer to your goals. Challenges are not obstacles but opportunities to learn, grow, and become stronger. Stay focused, work hard, and remain positive in every situation

Let us work together to make our college a supportive, inclusive, and progressive learning community.

Best wishes for your future pursuits

S/d

Coordinator IQAC/DSW
